PROLOGUE

Thousands of years ago, in the Solar System existed a large and
powerful empire. Those years, under their rule, were known throughout
the galaxy as "The Silver Millennium", whose headquarters was located
in Earth's natural satellite, the Moon. The Moon Castle was the home
of the Royal Family, which was intended to protect the sacred stone,
Silver Crystal, in order to maintain peace in the solar system,
especially in the blue planet, Earth. Holding the power of the
crystal, the people of the Moon were known for their joviality and
long life. The powerful stone had also an endless supply of power,
which, in the wrong hands, could be a dangerous weapon for
destruction. For these characteristics, the Silver Crystal was always
desired and envied by many people, good or bad. This led to the
beginning of a dramatic, romantic but adventuress story, many years
ago, by the birth celebration of the Moon Princess...

To celebrate the birth of her only successor, Queen Serenity of the
Moon, Goddess Selene's reincarnation, decided to invite all residents
of the Moon. A wonderful party began with the announcement of the
four Senshi who would serve their lives to protect the future

princess. They were: Sailor Mars, the Senshi of fire, Sailor Mercury, the water Senshi, Sailor Jupiter, the Senshi of lightning and thunder, and finally Sailor Venus, the Senshi of love and the leader of them all. The Senshi, being only children at that time, made their vows. The party guests began to give gifts to the baby, but the evil presence of a person disrupted the party. The black aura of Neherenia, the uninvited one, was sensed. She made a special apparition in order to give her special gift to the princess. To prevent it, Queen Serenity used the Lunar Sceptre and sealed the queen of darkness inside a mirror located in the main hall of the castle. When sent to the mirror, Neherenia delivered her gift, or rather, a curse: _"The princess will die before inheriting the throne and the Silver Millennium, will collapse."_

Meanwhile, the princess grew into a beautiful young woman...

During the Silver Millennium, the Kingdom of the Moon had great influence over the Earth Kingdom. The Moon was responsible for peace and harmony on the planet but, behind this political alliance, a forbidden romance by all rules, was born. The young Princess Serenity ended up falling in love with Prince Endymion, future ruler of the Golden Earth Kingdom. During the visits to the blue planet, her curiosity grew better by contemplating things that didn't exist in her homeland: green trees, blue water, refreshing breeze... There, Serenity began to meet secretly with Endymion. The love between the two started, but it was a forbidden love... All knew the secret romance between the two, especially Sailor Venus, who often advised Serenity not to go to Earth to meet with Endymion. Moreover, even the guards of the Prince, the generals Jadeite, Nephrite, Zoisite and Kunzite, were aware of the relationship. They tried to stop them and alert them, but the separation seemed impossible. This approach allowed new secret loves between the generals and the Senshi.

In the meantime, a young woman also fell in love with Endymion. Her name was Beryl, one of the priestesses of the Golden Kingdom and the promised wife of the Prince. During the secret meetings of the lovers Endymion and Serenity, she spied them in the distance, feeling hatred, envious and with greed. She couldn't bear seeing the Prince in love with anyone else and ended up making a pact with the devil in order to separate them once for all.

During one beautiful night, where shooting stars painted the dark blue sky, a strange creature known as Queen Metalia took advantage of the negative feelings from the young priestess. She possessed and poisoned her. Thus, Beryl organized a large army, brainwashing the minds of the Earth Army, planting revolutionary ideas such as ending the control exercised from the Moon over Earth. Her mission was clear: stealing the Silver Crystal for endless power and rule the darkness kingdom beside Endymion. Deluded, they attacked the Moon and a bloody battle began...

During the attack, Beryl led the battalion and tried to kill Serenity but Endymion placed himself in front of the princess receiving the attack which caused his death. Seeing the Princess being attacked, Sailor Venus wielded the sacred sword and killed Beryl, but the danger was not over. The twisted mind of the Army couldn't be retrieved and, more than that, the loss of a love's life was too much for the young Princess... Shaken by the death of Endymion, Serenity took Beryl's sword and tore her chest. As blood flowed, her Senshi and mother screamed for her, in vain. Then, the only way to destroy

the enemy was using the power from the Silver Crystal. The Queen raised the symbol of the Royal Family, the Lunar Scepter, and with its power, the invaders turned into rocks, confining them in the depths of the earth. For the Senshi and the couple, fate was different... All of them were sent to Earth in the distant future so they could reincarnate. An opportunity to live truthfully happy in a peaceful world.

In distant planets, the outer Senshi watched the war. Sailor Uranus, Neptune and Pluto couldn't do nothing except for one option... By raising their talismans, they invoked the goddess of destruction, Sailor Saturn. The warrior took her Silence Glave and everything came to an end.

The Silver Millennium, the Sailor Senshi and The Silver Crystal were over... There, remained only the desire to, one day, reborn into a different world...
>Thousands of years have passed ... But something very powerful was again awakened in the depths of point D, in North Pole. Again, the light for darkness was called...<p>

Meanwhile, a fine morning in 1992, a blonde girl woke up hearing her mother say she would be late for school. She barely knew that her life, from this day on, would never be the same...

Chapter 1 - I`m Sailor Moon?

One random Morning, in one special house around Tokyo, Japan...

"Usagi! It's past 8 o'clock!" A woman screamed.

"Mmmm..." A young girl whispered during her peaceful sleep... She calmly opened her eyes and looked at the clock beside her bed.

"AAAAAAHHHHHHHH" She screamed realizing she was late for school. Again.

The 14 year old blonde girl with a unique and characteristic hairstyle, rushed down the stairs in a hurry.

"Mom! Why didn't you wake me up earlier?!" Usagi asked while brushing hastily her teeth.

"I tried many times Usagi and you answered each time, remember?" The mature blue haired woman said while reading the newspaper.

"I don't remember Mom!" Usagi ran to the front door.

"Oh, Usagi?" Ikuko said, still surprised with the typical morning conversation with her daughter.

"What?! I'm late remember?" The girl turned back to the kitchen getting upset because her mother was delaying her further.

"You don`t need your lunch?"

"Uh, sorry. Of course!" She smiled picking up her pink bento.

Running again to the front door, Usagi put her shoes and left the house. During the marathon through the streets of Juuban, she couldn't stop yawning and cursing along the way. "I hate mornings! Why they exist anyway?! I'm so sleepy..."

Near her school, she heard some kids voices. By curiosity she approached them. 3 little boys were attacking a cat. "Hey! Stop it!" The girl couldn't bare this violence to a harmless animal.

Her scream scared the little guys making them ran away. Looking at the cat lying on the floor, she knelt in front of the animal.

"Poor kitty... It's over now." Usagi said as she took the cat into her arms noticing a patch in the cat's forehead.

"Oh, did they put a band-aid on you?" The cat struggled from Usagi's embrace while she was trying remove the patch. The blonde realized the cat's battle but she was able to removed it. And by surprise... the band-aid was covering a crescent moon sign. So odd!

"Wha-" Suddenly the cat jumped off from her arms to the top of a nearby car.

"Oh, nevermind! I don't have time for this!" The girl took off resuming her race against time to her destination, leaving the small animal bewildered.

><p>After the first adventures in the morning, school day was not any better for Tsukino Usagi. She got detention in the first hour, as expected. This had become a daily habit. But worse, her test got a score of 30%!<p>

After many hours of desperation, school time ended and Usagi decided to take a walk. Today unfortunately without the company of her best friend Naru. And to tell the truth, she didn`t want to go

home.

Along the street, huge sales decorated every shop, making her dream about what she could purchase.

"But I can't ask for any rewards when I got only 30% on my test... Ahhh! Time to kill this test!"

She crumpled the sheet in her hands into a paper ball and threw it over her shoulder. _'Better go home'_ she thought when the paper ball hit someone...

"Hey Odango-atama! That hurts you know?" A deep masculine voice said angrily, right behind her.

"What? I'm sorry..." Usagi said turning around to face the man. "Hey, what did you just call me?!"

The boy unwrapped the paper to see its contents and... "30 percent?!" He grinned at the petite blonde "Study harder next time, Odango!"

"It's none of your business!" She said stealing the paper from his hands, walking away. But then, she stopped on her tracks turning around to stare at the guy. "What's his problem?! Pretentious Jerk!" _'But he`s so handsome... No, no what I'm thinking!'_She ran away from her thoughts, going home.

* * *

><p>In her way home, Usagi decided to make another stop. This time in the Crown Arcade owned by Motoki, her newest love crush. <em>'He's so sweet<em> _and always helping me with these new games!'__M_oments later and after she spent all her coins in games, the cat she saw in the morning walked in._'The same cat again? So weird...__Well, better go home!'_

When her mother saw her 30 percent test, the house suddenly turned into the 3rd world war. Taking refuge in her room, Usagi laid down on her bed.

"I'm tired... Maybe I'll take a little nap..."

When she was about to fall asleep, big noises came from her bedroom window, right behind her back. The same cat she saw earlier opened her bedroom window, entered and approched her carefully...

"Excuse me..." The feline said.

_'__The cat is speaking?!'_ Her eyes widened.

"Usagi-chan. My name is Luna. I've been looking for you... Princess. You really helped me out when you took those bandages off. With them on, I couldn't talk or think straight. Thanks, I was getting worried about what I'd do if we never met up. I'm glad we've met... again."

"Ooohhh ooohhh slow down... Princess?! We've met again?! Why you can talk?! Oh right, I was sleeping which means I'm dreaming right now! When I close my eyes you'll be gone..." Usagi tried to sleep

again.

"USAGI-CHAN! This isn't a dream! Look! I have a present for you..."
The blonde lifted her head.

A brilliant brooch appeared on the floor, next to her
body.

"Wooooow! It's so pretty!" Usagi pin the brooch in her school uniform
looking herself in the mirror with vanity, ignoring the cat.

'She definitely didn't changed... at all.' Luna thought.

"It's really pretty, thanks! You mean, I can really have this,
right?"

"Usagi-chan, listen to me! I have to explain you everything I said
before but now, pay attention, there are a string of odd crimes being
committed in the Tokyo area. These crimes, police won't be able to
solve. And you... Usagi-chan, you've been chosen as the guardian in
this era. As the princess, you have the duty to gather your allies
and defeat your enemies!"

"Why the brooch is shining Luna!"

"You still don't believe me?! Try calling out 'Moon'!"

"Moon?!"... "Moon Prism Power... Makeup!" A stream of light embraced
Usagi's body transforming her school uniform into a sailor suit with
a blue collar and skirt '_Mini Skirt!'_, knee-high red boots with a
white border at the triangular top, crescent moon earrings, two
white-bordered red circles in her odangos... and the description
could go on but, you all know it very well, right?

"What... What's this?! I'm feeling somebody is in trouble... I can
hear screams... We've got to help Luna!"

"You believe me now?"

"Yes... but... Hum... Who am I now?"

"You're Sailor Moon and you got to save them, let's go!"

"I'm Sailor Moon?!..."

Chapter 2 - Princess! Where are you?

"Yes, we've got no time Usagi, hurry!" Luna said running to the window, but Usagi couldn`t move, trying to hear something...

"Naru-chan?! What is...?! Oh, no! What's going on?!" The blonde said furiously, as a familiar voice echoed in her head.

"Again, Usagi-chan... Do you believe me now?" Luna turned around and took a few steps towards Usagi.

"Luna! I really don't get this but... Naru-chan is in trouble! We've got to help her Luna!" Usagi followed her instincts and ran after the cat, jumping off the window.

><p><strong>Meanwhile in OSA-P Jewelry, downtown Tokyo<strong>

"S-Stop it Mom" Naru said distressed when the evil figure of her mother tried to strangle her.

"I'm not your mom!" Replied the mature redhead woman, possessed by dark forces, with full hatred eyes towards her "daughter".

Naru-chan began to choke, while her strength slowly leaving her body due the extreme force applied by the large creepy hands, on her neck. Suddenly, the woman turned to a big terrible monster and panic took over Naru. She couldn`t believe her eyes!

"Your mom is locked up in the basement. After I kill you, I'll send her to the other world with you."

And then...

"You monstrous scum bag! Get away from Naru-chan!" Through the shadows, by the door frame, a female form with a peculiar hair style could be seen. The monster diverted her attention to the intruder.

"Eh?! Who do you think you are?!" The monster yelled to the opponent.

"Me? I'm... Um... The Pretty Guardian in a Sailor Suit! Guardian of love and justice, Sailor Moon! In the name of the moon, I'll punish you!"

"AH, AH, AH I've never heard anything like that! Sailor Moon?!" Said the monster facing the blonde heroine. "Awaken! My slaves that give their energy to my great ruler." Commanded the monster to the women laying on the floor due to their drained energy. They slowly rose up like zombies... approaching Sailor Moon.

"Hey! Who are you people?!" The heroine started to panic and suddenly, they began to attack her and one of them grabbed Sailor Moon by the neck, throwing her across the store, against a wall."Oh no! I'm bleeding! It hurts Luna!"

"What are you doing Sailor Moon?! You have to fight. You have to destroy that monster." Luna tried to encourage the blonde.

"Why? Why is this happening to me? It's not a dream?!... I'm going home!" Sailor Moon says crying.

"This is the end!" The monster decided to kill Sailor Moon, running towards her, making the blonde haired girl crying even harder. This action was shortly ceased by a rose thrown across the room, falling at Usagi's feet.

"Who's there?" The monster looked quickly to the next opponent.

"I am Tuxedo Mask. Crying isn't going to solve anything, Sailor Moon." A tall man wearing a black tuxedo with a black cape, stood by the window.

"But I..." Usagi said hesitantly..

"Take the tiara and yell _Moon Tiara Action_ and throw it!" Screamed the cat.

"Why do I have to do that?"

"Just hurry and do what I`m saying!"

"Moon Tiara Action!" Once the tiara reached the monster, the creepy figure dissipated in mere seconds. The women-zombies fell in the ground, returning to their original forms.

"No way! She turned to sand and vanished?!" Usagi said not believing on what just happened in front of her. Suddenly the other hero spoke.

"Good job, Sailor Moon! Well, I didn't find the Legendary Silver Crystal... but I did find something more fascinating." Winking to Sailor Moon.

"But... Who are you?..." Asked the heroine blushing.

"My name is Tuxedo Mask... I will not forget you Sailor Moon... bye!" Said Tuxedo Mask leaving immediately.

"How wonderful!... He's gorgeous..." Usagi said with her heart beating like a thousand miles an hour.

"Well done Usagi-chan!" The cat said cheerfully.

"Mhmmm..." The heroine kept dreaming...

"So now you realize the situation, right? About the enemy I told you before..."

"..." And dreaming...

"USAGI-CHAN! You see, the enemy started the invasion and-"

'This is amazing, and I even met a cool guy! What a wonderful dream! Ahh...'

"Okay, Usagi-chan, we're going home." Luna decided to end Usagi`s dream, scratching her leg.

"HHHEEEYYYY!... You evil cat! What was that for?!"

"Important issues were said here and you weren't listening... as always! Let's go home, we need to talk."

"Bla, bla, bla..." Usagi lays her tongue out to the cat. _'Annoying cat'_

"Did you said something, Usagi-chan?"

"Nothing Luna, everything great..."

"Good."

* * *

><p>"Finally home... I`m so tired..."<p>

Usagi sat in her bed looking strait to Luna, desirous for the long-awaited conversation. The cat followed Usagi's gaze.

"Luna... Now what? Do you plan on living at my place? Do I have to do this in the daily basis? You owe me an explanation! Now, care to explain me?"

"From now on, more monsters are going to show up. I've got so many things to teach and tell you..."

"But who are they anyway, Luna?! And Tuxedo Mask, who is he?"

"They aren't human but, you should know that already. For Tuxedo Mask, honestly I don't know who he is. He may have helped you today but beware, I don't know if he's an ally or part of the enemy."

"Well, he didn't seem dangerous at all... Now, tell me something that I don't know!"

"These 'things' shouldn't be in this world. They're pure evil. The priority is to find your allies from a thousand of years ago... They need to protect you."

"A thousand of years ago?! What do you mean by that? Is this some kind of creepy history?... Wait! I think I don't want to know..."

"That 'creepy' story as you said, it's your legend! You are reincarnated in this era, in this planet, to fight the evil, which destroyed your kingdom a thousand of years ago, in order to rise again the Moon Kingdom."

Usagi was amazed. Thoughts ran wild in her head. _'Could this be

true, should this even be possible? Why me? Why now?'_

"I don't understand..."

"Well it's time to tell you a story. Your story. Once upon a time..."

Luna told Usagi-chan the story of the Moon Kingdom since her birth as Princess Serenity till the decay of the kingdom...

"So... based on what you just told me I'm the Princess Serenity of the Moon, right?" Luna nodded with her little head. "But... How am I supposed to find the senshi? And Endymion? I wish I could remember all you said to me... It would be more easy. It seems like a movie where the main character is outside the story... How can I regain my memories Luna?"

"Usagi-chan the remembering process will be gradual... I think when you find them, the memories will be triggered, or part of them, for sure."

"Wow... I'm a princess... The klutz queen is a princess, who would have guess ah? And I have a prince!" Her enthusiasm is suspended momentarily. "Hum... Luna? I loved him that much? Like a real fairy tale? You know... the Prince. How does he look like?" Usagi got lost in her dreams, trying to formalize an image in her head but the only figure coming to her mind is the wonderful hero who saved her, moments ago.

"Usagi-chan I'm not going to tell you how he looks like, in the proper time everything will come to you, don't worry... And as for your first question... Yes, a love like no other for certain."

"Ooohhh I'm so anxious Luna... But, if he doesn't remember me? I don't know who he is."

"Calm down Usagi-chan. First we need to find them and then everything will be more clear, in their time."

><p>In another place around Tokyo, a male figure dressed in a tuxedo with a cape, previously known as Tuxedo Mask, entered an apartment through the balcony window. Within seconds, a bright light enveloped his body changing him into a normal man. He sat on his couch thoughtful.<p>

_'You should be asking who I am, right? Well, that you should already know, but I prefer presentations in my own way. My name is Chiba Mamoru and I'm 18 years old. I have no family, at least, from what I remember. I only know that my parents were killed in a car accident when I was 6 years old. I was in that car and, miraculously, survived. From there on, my mind became empty, with no memories, like a newborn. A few months early from here, I started to gain some memories back but, the more surprising thing is that they were not from my parents or the life I used to had when I was a child... They weren't even from this era. Only memories of a past life. Yes, I'm sure of it, they were so real that I could feel every second of them. I was the prince of the Earth Kingdom... I remember my parents, my

generals, my life as a young ruler but there was also a young girl...
Her figure was blurry, couldn't see her face, only the golden color
of her hair and her long white dress. When that girl appeared, a heat
wave fulfilled my body... by her dress, she was a princess and that
feeling was unmistakable, she was my princess and I was in love with
her. In these memories she told me to find the legendary Silver
Crystal so that all my memories could fully return. Shortly after, I
became the Tuxedo Mask with a mission to find that crystal in order
to have, finally, a new worth living life. It could be a past life
but, I was willing to risk everything to live that. I hate this
lonely life, I need my identity. I want to find the princess, my
princess... I'm certain she will be the answer to my questions. For
that, I had to fight against an old enemy with the same purposes from
a millennium ago. The most curious thing is that it seems that I'm
not alone in this fight... Sailor Moon... As I saw her, I felt that
familiar warmth... maybe she's a part of my memory. But I have to
find out...'_

"Princess! where are you?"

POINT D – NORTH POLE

"Jadeite, have you found the Legendary Silver Crystal?" A sinister
red-hair queen asked her servant.

"I haven't... I offer my apologies my Queen." He said, kneeling in
front of her.

"I see... we must locate the Crystal immediately!"

"I will my Queen, it's just a matter of time, trust your Commander."

"Very well Jadeite, I'll be waiting!" She said with a smile on her lips.

><p><strong>MEANWHILE IN JAPAN - TOKYO<strong>

Usagi was returning from school when, she clashed against someone. The collision was so strong that she started to fall against the ground when a strong hands grabbed her arms, helping her.

"You're okay?" She heard a male voice. Looking at his face, Usagi recognized him immediately.

"You again..."

"Odango-Atama?" These words made her angry.

"You Jerk! My name is Usagi! U-S-A-G-I!" Mamoru was amazed looking at her... The same warmth he felt yesterday when he saw Sailor Moon for the first time."What?! The cat ate your tongue? Let go off of my arm!" Usagi tried to release herself.

"Usagi..." he said looking at her seriously. Staring back, she couldn't help but think how beautiful and attractive he was! Apart from being an asshole, the man was perfect. Seeing him with no reaction at all, she took a turn to leave.

"Bye Jerk!" He wasn't planning on letting her go easily so he caught her by the arm again.

"Leave me alone! You're hurting me!" As Mamoru touched her arm again, past images that haunted him in dreams, quickly returned to his head. Especially that woman... His princess. Could it be? And that feeling, like Sailor Moon... Could them be the same person?!

"Are you listening to me? If you don't let me go, I'll scream!" These cries brought Mamoru back to reality facing the little woman in front of him. Realizing his aggressiveness, he released her arm.

"I... Usagi, you..."

"Ok Jerk... Now, you're scaring me!..."

"My name is Chiba Mamoru, I..." Usagi was confused.

"Did I asked your name, you stupid? Who do you think you are to grab me like this on the street?!" She wasn't happy.

"Sorry..." He said. Usagi was even more confused.

"Uh?! Ok, whatever. Bye!"

"Wait!" Mamoru shouted but Usagi quickly disappeared from his sight

><p><strong>AT THE PARK<strong>

She couldn't go home. The argument, moments ago, was making her think. As much as she thought about it, she couldn't understand what was wrong with that man. Admittedly, just a day ago, she threw her test at his head but why did he reacted that way? She had apologized but he started to insult her intelligence and calling her Odango-atama! She had never been so angry with someone... In fact, no one had annoyed her like that. To clear her mind, Usagi sat on a bench near the lake, in the park. This was a routine for her, whenever she felt sad. Despite the anger towards Mamoru, was impossible to remain indifferent to his beauty. True she had a crush on Motoki but, that feeling was different. Way too different. _'But, why?'_

Once Usagi vanished from his sight, Mamoru decided to take a walk to the park. His favorite spot in the city, especially in recent times. This place always bring him the inner peace he needed. Approaching the lake, he saw a female figure sitting on the bench. _'It's her! Is this fate?'_

Gathering all the courage, he decided to go and talk to her. He wanted to find out who she really was and figure out his feelings for her. Usagi heard some footsteps and the noise ended when two feet came to her sight, just a few inches from her. In front of her, stood Mamoru.

"Great! I can't believe it! Are you stalking me?! What's wrong with you?" She got up, facing him.

"No, I'm not chasing you. I decided to come to the park for a walk and by coincidence, I saw you."

"Oh, really?!" She smiled sarcastically, putting her hands on her hips in a defying stance.

"Yeah, really... Believe me or not. We can say it was a good coincidence, because I want to talk to you."

"About what? I don't know what you might have to talk to me because, I have nothing to say to you!"

"You're sure?" He said, smiling to her.

"Of course I'm su... What the hell?! Why should I have something to tell you? I don't even know you!" She screamed.

_'Ok, this is it, bluff time' __Mamoru thought._ "Care to think about it... Sailor Moon?" He asked carefully, waiting for her reaction.

"What?! How did- I mean, are you delusional, Chiba?" Unconsciously, she moved dangerously towards him.

"So, you're Sailor Moon..." He said softly.

"You heard what I said?! I'm not Sailor Moon!" Their faces were, slowly, getting closer.

"Yes, you are... and I just need to clear one more doubt from my head." He told her, placing both hands on her waist, pulling her against his body.

"Take your hands off me! You pervert! Don't yo-" Usagi couldn't finish her sentence because his lips crushed over hers. She tried to fight his control, in vain. Quickly, she let herself be carried away by his warm mouth. She was feeling complete. Moaning against his mouth, her lips opened slightly inviting him to deepen the kiss. He responded equally, licking her lip in invitation as well and swirling his tongue around hers making Usagi's body extremely hot. Mamoru couldn't believe how good it was tasting her, felt so right! Lost in the kiss, memories assaulted their minds. Remembering their past lives, the contact between the two was visibly getting intimating and acquainted. Her arms around his neck, pulling him even more against her as his hands slowly explored her body`s curves. The process was now complete.

Breaking apart from each other reluctantly, the two stared at each other affectionately.

"Serenity..."

"Endymion..."

The moment was shattered when a very strong light enveloped them.

Chapter 4 - Enjoying a New Life

The intense light involving the couple suddenly shaped up into the legendary Silver Crystal, floating in the middle of the Prince and Princess who were holding hands. At the same time, in a nearby area, four Senshi woke up to its power recovering all their memories.

Luna watched the whole process near the couple.

"It's done..." She whispered, smiling.

"Endymion... I found you again! I can believe it!" Serenity said, crying.

"Serenity... " He said smiling to her. "This is our opportunity and this time we'll win, I promise you." She nodded.

"Princess..." The couple looked behind them.

"Luna! Now I remember, everything!" Said Serenity, happy.

"I know Princess... And your Senshi too."

"Yes, I can feel them... their power. " Serenity said.

"My love, we have everything to be succed and I'm here with you..." Endymion said pushing the Princess to him.

"Well, well, well..." The couple and Luna looked above seeing a male figure smiling at them. "What we have here! The Princess of the Moon and the Prince of the Earth, such honor and how touching! I'm so glad you found each other... now my task is half done."

"Jadeite!" Endymion yelled.

"Yes, my Prince? He said sarcastly. "Queen Beryl is looking forward to find you again. She'll be so thrilled about the news! Ready to face the Queen AGAIN, Serenity?"

"You can tell her, this time, we won't fail." She said confidently.

"We'll see my dear Princess, be ready!" With a hysterical laugh, Jadeite was gone.

><p>Moments later Endymion and Serenity, now Usagi and Mamoru in their civilian forms, were still in the park walking and holding hands as a happy couple.<p>

"What we do now, Mamo-chan?..." She said looking into his eyes.

"We need to train and be ready for the upcoming battle but... for now, I want to enjoy this new life and everything it has to give me. And... enjoy time with my Princess, of course!" He smiled suggestively.

"Sounds wonderful!" She said, cheerfully.

"Come, I want to show you my apartment and later, we'll meet with Luna and the girls too."

"Ok! I can't wait to see the girls again! A thousand years... can you believe it?"

"It's difficult Usako... but what matters is that I have you back with me and nothing's gonna change that." He smiled at her.

><p>"LUNA!" Four girls shouted, excited. With them, there was another feline with the same crescent moon mark. Luna had tears in her little eyes.<p>

"Wow, we're back and for real! Where's Serenity?" Asked Minako, Sailor Venus.

"With Endymion, but they'll join us later, don't worry." Replied the cat.

"Oh, then I guess we'll have a lot to wait, ne?" Said Makoto, Sailor Jupiter, giggling.

"I guess... but while we're waiting we need to talk about some things... Jadeite appeared moments ago and threatened us. We need to be ready, girls."

"Here? But, how did he know..." Asked Minako.

"He sensed the power from the Crystal for sure and followed it here." Said Rei, Sailor Mars.

"And now, where are we going to stay? With our memories back, "our" family here won't recognize us anymore..." Said Ami, Sailor Mercury.

"It's true Ami-chan... I didn`t thought about it!..." Said Luna with a sad expression.

"Don`t worry, together we can find a way out, Luna." Said affectionately Artemis, Luna`s partner.

"How you suspected it was me, Mamo-chan?" Asked Usagi cuddling with her boyfriend.

"By touching you... Usako." He replied, caressing her arm.

"Uh?... But, how?" She looked oddly at him.
>"When I grabbed your arm... I had a few flashes in my head, images from my past life just like in my dreams. That's when I knew you had something to do with them..."<p>

"I also felt a strange feeling upon you but I prefered not to think too much about it..." She sighed at the thought.

"Was I getting under your skin? Seducing you?... You can say honey, I'm handsome!" He smiled.

"Really? Never noticed that..." Usagi got up from the couch but he was faster and lifted her in his arms.

"I guess we have a little extra time before heading to the park again and meet the girls... So, let's test that theory, uh?" He ran to his bedroom with Usagi in his arms.

"Mamo-chan..." She said giggling.

"Yes, Princess?" Mamoru asked, laying his girlfriend on the bed.

"Do you remember... you know... those times when we used hide in our secret place?"

"How could I forget? But you're wondering what we did with our time alone?" He asked suggestively.

"I miss them..." She blushed.

"On second thought, I think that part of the memories are still a bit blurred... Maybe we should clear them?" He said trailing kisses along her jaw.

"Oh, definitely we should..."

><p>"Queen Beryl. May I speak with your Highness?" Asked her General, entering the throne's room.<p>

"You're already in front of me. What happened?" She asked, raising her eyebrow.

"You won't believe it... I found the Silver Crystal..." He replied, smiling at his Queen.

"What?! Where? You brought it to me, right?"

"Apologies my Queen... The Silver Crystal is with the Princess of the Moon, Serenity. She finally woke in this era..." He paused. "As Endymion, too."

"Endymion?! So, my future King is back... Perfect! Let them have a taste of their perfect life together, for now. But this time, I'll kill her slowly and painfully..." She laughed closing her fists and squinting her eyes in anger and eagerness.

"You're not planning attacking them, my Queen?"

"I am. Just not in the way they're expecting... Ahahahahahah!" Her evil laugh echoed through the dark room

><p>Usagi shivered under her Prince's embrace.<p>

"Usako... what's wrong, love?" He asked kissing her forehead.

"It's strange... An odd feeling like something's is not right..."

"Ssshhh It's okay, don't worry... We'll be ready."

"That's my concern. We're ready for what? What will she plot this time?"

"We'll figure it out..." Mamoru shortened the gap between them, kissing her passionately.
